CLOSING THOUGHTS

CLOSING THOUGHTS ON THIS PUPPY

Miss L&D: This girl has STRICKING features and overall look. She has such nice merling and facial markings, and her coat is very fluffy. She is happy and playful. She doesn't know a stranger and loves all. She interacts really well with humans and dogs. She will make a really good family pet.

This puppy has a COLOBOMA in her left eye. This is a genetic defect identified by the breeder during evaluation. This is being disclosed to allow families to talk to their vet regarding the health concern. While coloboma are typically asymptomatic, please do your due diligence and research the eye anomaly prior selecting this puppy.
